WHAT I'M PROUD OF

My Courage

To always leave my comfort zone. I'm not afraid to do whatever I need to do to achieve my goals!

PROFESSIONAL SUMMARY

PROFILE

I am an experienced Python & JavaScript Software Developer, adept in bringing forth expertise in design, installation, testing and maintenance of software systems. Equipped with a diverse and promising skill-set. Proficient in various platforms, languages, and embedded systems. Experienced with the latest cutting edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Above all, I am self-motivated and self-taught professional who likes to solve problems.

MY SKILLS

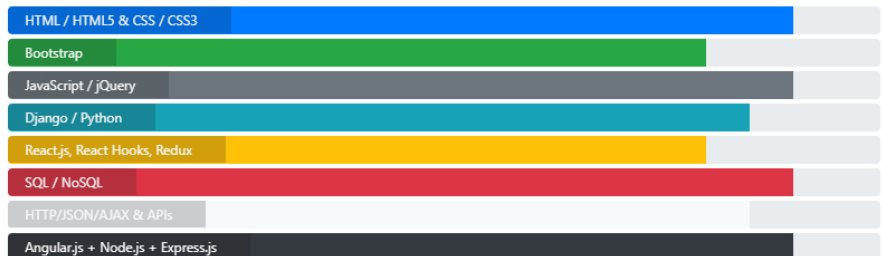

FRONT END

I'm skilled in User Experience Design using the trinity of HTML/CSS/Javascript. I also have extensive experience in Front End Frameworks such as Angular and React.

BACK END

I specialize in data-driven web applications. Many of my projects utilise document-based data. I use Python and Django in conjunction with MongoDB to process and present information.

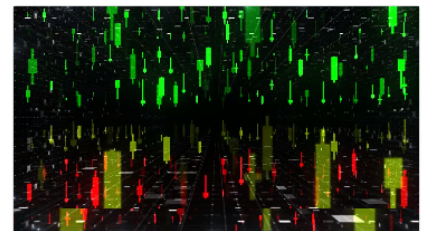

MY RECENT PROJECTS

Robot With Moving Eyes Developed With Python

This is well developed and functional Robot with moving eyes. The product is developed with Python to help with 100% 24/7 security and reduce error of any kind from human.

Stock Market Web App With Python and Django

A cool Stock Market Portfolio app that let's you save stock ticker symbols to the database, then connects to a third party API to collect stock market information about your stocks!

My Focus & Persistence

Despite any hard situation, I keep my focus on my goal and always move towards them.

My Flexibility & Adaptability

I left my country and culture to live in Sweden, and I have adapted to the Swedish society and way of life. I'm encouraged with my personal development and celebration of diversity, because I am doing perfectly well.
